

# E7119 Fuel Tank Sender Standpipe Installation Instructions

Eberspächer

1. Remove the fuel tank sender unit from the vehicle and drill an 8mm hole, for the standpipe, in an appropriate location.
2. Secure the standpipe (22 1000 20 15 00) in place.
3. Using the 9mm stainless steel clips (11051) secure the 2 mm I.D. blue pipe (890 31 054) to the standpipe using rubber connection (360 75 300). *Figure 1.*
4. Cut the blue fuel pipe to length and refit sender unit to fuel tank. Avoid the float mechanism. *Figure 2.*
5. Fit 2 mm I.D. blue fuel (890 31 054) to the standpipe using the rubber (360 75 300) and 8 mm (10 2061 00 80 98) and 10mm clips (10 2063 01 00 98).

N.B. If using on Hydronic heater use connection pieces in main kit.

*Figure 3* shows the standpipe position on the VW Crafter sender unit.

**Remove nylon insert from standpipe before use.**

## Parts List (for Kit No. E7119)

Item	Description	Part No.	Qty
1.	Fuel Tank Sender Standpipe	22 1000 20 15 00	1
2.	Clip - 10mm Fuel 46010	10 2063 01 00 98	1
3.	Adaptor - Fuel Line	25 1596 80 00 02	1
4.	Fuel Line - 2mm Blue	890 31 054	2.0
5.	Hose Fuel - 3.5 x 3mm	360 75 300	0.06 x 2
6.	Clip - 9mm Fuel S/S 48009 A	11051	4
7.	Fuel Line - 2mm ID 4mm OD A	890 31 054	0.5
8.	Instruction Sheet E7119 D	20381	1
9.	Clip - 8mm Fuel PT 46008	10 2061 00 80 98	1
